

ComplexCareMD is a **physician led** clinical organization utilizing an **optimized process** and procedures that enabled by **cutting edge technology** to help our Clients reduce the cost of care for High Need High Cost (HNHC) patients.

**Current Problem...**

**In the U.S., Health Care Costs Concentrated in Sick Few—Sickest 5% Account for 49% of Expenses**

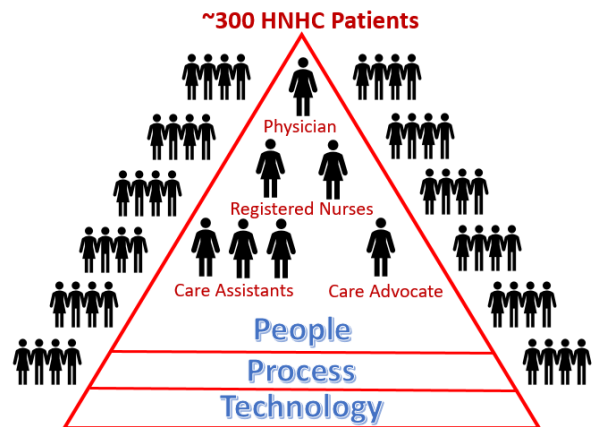

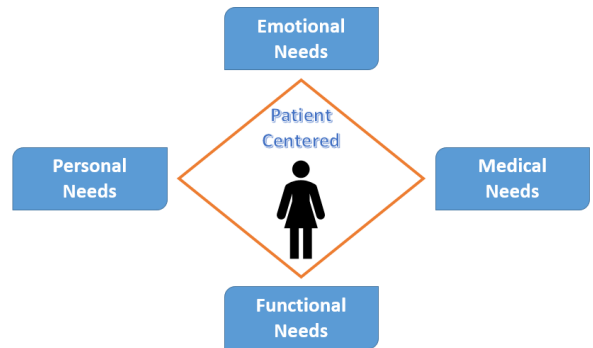

Source: Agency for Healthcare Research and Quality analysis of 2013 Medical Expenditure Panel Survey; MEPS Statistical Brief 480. 

- Average national PCP panel size: 1 PCP → 2500 patients
- Fragmented Care – NOT customized, NOT targeted
- This population is clinically diverse and with multiple chronic conditions
- Extreme functional limitations along with severe and persistent behavioral health challenges
- Impact of social factors such as lack of housing, food, and supportive personal relationships
- Limitation of resources available in healthcare ecosystem
